Schrank Donny mit Schiebeturen: Robustes Teakholz & Industrielles Design Make a strong statement in your interior with the impressive Donny Schrank. This massive and spacious Schrank is made of high-quality solid teak wood, combining rustic warmth with a robust, industrial processing. Thanks to the intelligent division and the large format, this is the ultimate storage solution for living room, kitchen or office. Robust design with unique details The first thing that catches the eye of this Schrank, are the two characteristic sliding doors. These hang from a robust steel rail system, providing a playful and practical operation. The doors are wonderfully processed with heavy steel hinges and authentic ring pulls, giving the furniture a lived-in and powerful character. Every inch of storage space The Donny Schrank is the perfect mix of bookshelf and storage space. Open shelves: On the outside (and in the middle, depending on how you move the doors) you find spacious shelves. Perfect for setting your favorite books, dishes or home accessories in a scene. Closed storage: Slide the doors in front of the shelves, which you would rather keep out of sight. Drawers: At the bottom of the Schrank are practical drawers for storing loose items, papers or cutlery. Whether you like an industrial interior or a warm rustic setting, the Donny Schrank is the moodful centerpiece of the room.
